

### PenVasc Modules

#### Vascular Reporting and Tracking

PenVasc eliminates hand written worksheets, dictation and transcription with easy to read reports. PenVasc tracks statistics for accreditation and research projects.

#### Automatic Data Entry

PenVasc will receive velocities and/or pressures to populate the electronic technical worksheet. This greatly reduces errors and omissions.

#### Image Management System

PenVasc manages DICOM images, sketches, PDF and other images. The built-in viewer is easy to use.

#### Information Technology Interfaces

PenVasc is vendor neutral, integrating with Cerner®, McKesson®, EPIC®, eClinical Works®, Allscripts®, Merge®, Meditech®, Greenway® and many others.

**HL7 Messaging** – PenVasc can import patient demographic and order information and export final reports to HIS, RIS, and EMR systems in multiple formats.

**DICOM Encapsulated PDF** - Final reports are exported as PDF files tagged with DICOM information directly to PACS, retaining the easy to read format

**PACS View Station Synchronization** - PenVasc and PACS view station worklists are synchronized for optimal workflow.

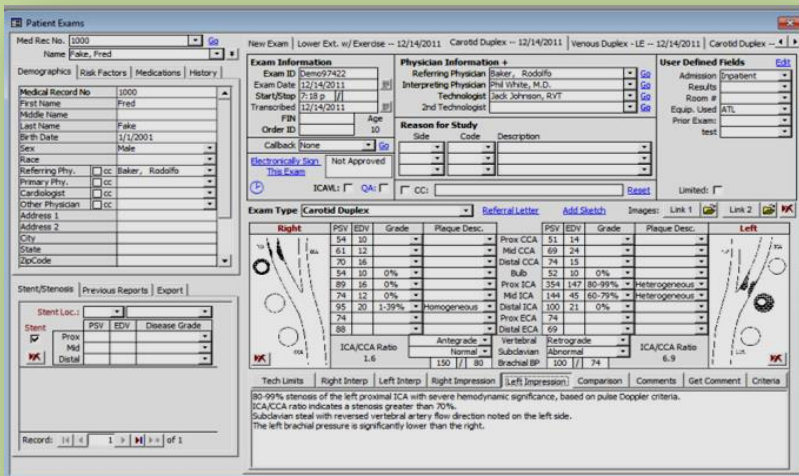

"PenVasc saves us several minutes per exam and allows us to concentrate on patient care and not paperwork."  
- **Technologist**

"The support is awesome... I have dealt with other software vendors and PenVasc is the best I have ever experienced"  
- **Technical Director**

"I am impressed with the accuracy of the PenVasc reports. No longer are there mistakes regarding right or left or the wrong vessel named"  
- **Reading Physician**

"Integration between PenVasc and our hospital wide EMR was easy!"  
- **IS Project Manager**

"I like the way PenVasc can handle our multiple locations with a single solution that is easy to support"  
- **Senior System Administrator**

# The Complete Digital Vascular Laboratory

*Improved productivity without compromising high quality patient care*

## EMR Integration:

- Patient Demographics
- Order Info
- Billing

## DICOM Integration:

- Images
- Velocities
- Pressures
- Worklist

**PenVasc**  
Vascular Information System®

## Electronic Technical Worksheet

- One step data capture
- Easy report generation
- Intuitive Workflow
- Attach Images and Sketches

## Easy Tracking

- Accreditation
- QA/QC
- Credentialing

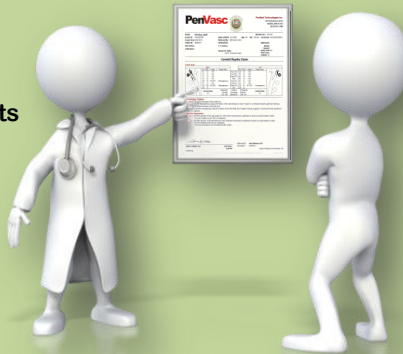

## Physician Review

- One step approval
- Remote Access
- Easiest to use

## Automatic Distribution of Reports

- Export to EMR, VNA or PACS
- Print, Fax, Email
- Quick Turnaround Time
